

Allergen Information

The food served here may cause hypersensitive or allergic reactions in individuals who are allergic to any of the 14 major allergens: Celery, Gluten (Wheat), Crustaceans, Eggs, Fish, Lupin, Milk, Molluscs, Mustard, Nuts, Peanuts, Sesame Seeds, Soya, and Sulphur Dioxide. These allergens may be present in various food items listed on our menu.

IMPORTANT NOTES

While we aim to clearly label allergens for each item (as listed in our allergen guide), some food items may come into contact with one another during storage, cooking, or preparation, which could result in cross-contamination. Although we take precautions to minimize the risk, Mr Chippy does not guarantee the complete absence of cross-contact allergens. If you or anyone in your group has a food allergy or intolerance, please inform our staff before ordering. If you're placing an order over the phone or online, ensure you mention any allergies to the person handling your order. Our team will do their best to accommodate your needs safely. This allergen information has been compiled using details provided by Mr Chippy’s approved food suppliers.
